RE: Endorsement

Jason Law,

On behalf of the Executive Board of the Professional Firefighters and Paramedics of Eastern Missouri IAFF Local 2665; with over 2,800 area fire fighters, paramedics, 911 dispatchers, and retirees we are very proud to enthusiastically make your endorsement for re-election to the office of St. Charles County Executive.

As a truly bi-partisan organization, the International Association of Fire Fighters takes very seriously our commitment to the citizens we protect, and our duty to evaluate each and every candidate and race individually on behalf of our membership. We make our endorsements based not only on a candidate's alignment with our core issues, but also on their ability to be an effective leader once the election is over.

Throughout your career in public service both as the Mayor of Lake St. Louis and as a law enforcement officer, you have shown that you will make our county's first responders your top priority. Your history as a strong supporter of IAFF Local 2665, and your willingness to address issues affecting our members illustrate that you are willing to work to achieve a common good, regardless of political alignment.

During your tenure as Mayor and throughout your campaign for County Executive you have proven your commitment to the region. As you enter the next chapter in your career in public service, your familiarity with our issues will be invaluable in helping our members receive the protections they deserve.

During the course of your election, you will have full access to our membership and the more than seventy departments that comprise this great Local. Feel free to reach out to me at any time and I will do my best to assist you with any campaign needs.

We look forward to working with you in the future.

Fraternally,

A handwritten signature in black ink that reads 'Cory Hogan'.

Cory Hogan
Vice President
